 Re: Documentation Outlining the Bidding and Awarding Process for UHIP Vendors
 Date: 11/2/2016

The four (4) contracts outlined below were solicited by the Division of Purchases (“Purchases”) through the request for proposals (“RFP”) process at the request of the Executive Office of Health and Human Services (“EOHHS”) in connection with the United Health Infrastructure Project (“UHIP”). Documentation regarding these processes was delivered to you on 11/1/2016.

Due to the complex scope of work, detailed specifications, and anticipated cost of required services it was determined that the UHIP solicitations were best procured through the RFP process. Unlike the Request for Quote (RFQ) process, which awards contracts solely upon lowest cost, the RFP process entails a two-phase review for technical ranking and cost approach, providing an award based upon “best value” for the State.

RFP Number	7449412
RFP Title	Request for Proposals – EOHHS PMO and IV&V Services for MMIS System Transition and Health Information Exchange/Eligibility System Implementation
RFP Purpose	To assist the state in EOHHS-led projects, including IES Eligibility Verification, IES MAGI Eligibility, Account/Case Management, Notifications, Navigator Management, and Reporting. EOHHS also has strong interest in several Exchange-led projects such as Pre-screen and General Information; Application, Registration, & Intake; Plan Presentation & Selection; User Administration; and Plan Management. EOHHS will work with DHS to migrate the legacy InRhodes eligibility system to the new IES functionality. All will require some degree of IV&V assistance.
RFP Issue Date	January 24, 2012
